Dear Sir:-

Insurance can guarantee the payment of your mortgage should you die before its maturity. Thus your property would pass on to your heirs unencumbered. The annual premium is approximately 1% of the amount of mortgage carried, the exact cost depending upon your age and the term of mortgage. A rider, attached to your policy for an additional ½%, provides that should you become totally disabled the insurance company would pay the interest on your mortgage as long as you are prevented from performing any work or conducting any business.

If you are interested in this protection, kindly return this letter and the writer will be pleased to call upon you and explain other attractive features of the policy.

Very truly yours,

John J. Blunt

My dear Howland:-

In September your Burglary Insurance in the sum of $2,000. and Fire Insurance in the sum of $5,000. expire.

I know that you contemplate giving up your present residence and moving into the City and I would like to have instructions in regard to the renewal of these policies. Probably, the simplest way to do is to have them renewed at the present location and then transfer them to New York City when you move. Unless I hear from you to the contrary, I will renew them in the regular way.

Truly yours,

Dudley Butler

Dear Dudley:

We are going to keep on for some time longer in Flushing, so the renewal of our insurance should be the same as before.

Gentlemen:

On Wednesday night, May 10th, I sustained a slight loss, amounting to a little over $7.00, of things pilfered from my garage. I think this is covered by my policy B22112A United States Guarantee Company, New York. Will you send me the necessary papers to fill out. We had been repainting a car during the day and the things stolen were a small paint sprayer, laquer and various tools that belonged in the house or garage or were specially bought for the purpose. Several other garages were broken into on the same street that night. The affair was reported to the police.

Very truly yours,

HW:JG
